In Separate Waists we can show you cotton, veiling, mohair and velvet but cannot tell you more as Mr. Sanborn has limited us in space.

Call and we will show you all this and much more.

S. B. & Z. S. Prince,
ABBOTT BLOCK NORWAY, ME.

The Score Card.

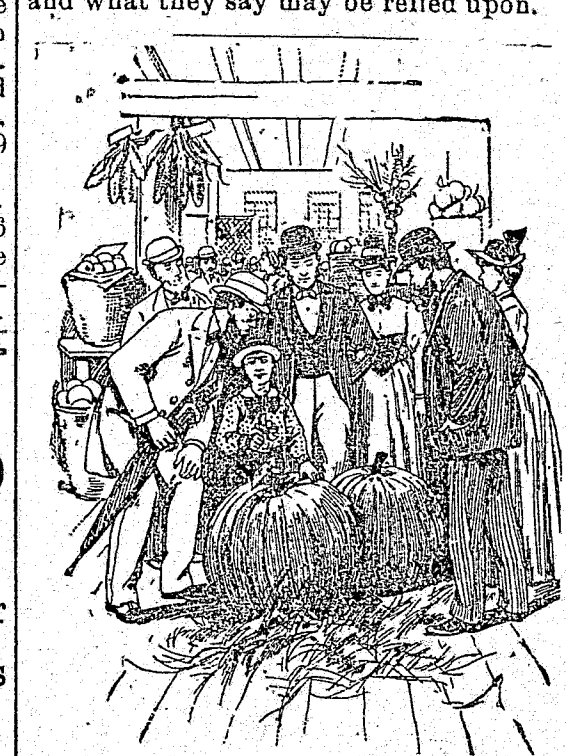

At the Oxford County Fair

"Score cards, five cents" is the familiar cry that greets the lovers of the race track. Pencils are also sold to all those who have been careless enough to attend a horse race without one.
No one who is interested in trotting would think for a moment of trying to get along without a score card on which to keep the score. George P. Downing of Norway and his efficient corps of assistants will have charge of the selling of the score cards at the grand stand, and if every one is not supplied it will be the people's fault.

The styles in score cards have changed a little in the past few years. At one time the jockeys wore caps of bright colors and their horse was known on the score card by the jockey's color (red, white, etc.) After a little it was thought best to have both color and number, so the colored cap and the number on the arm were both used. Now the color is discarded and only the number remains.
The number of the horse and the name and residence of the owner on the score card introduces the spectator at once to the horses about to start in the race. It also gives the class, and the purse to be won. There is space to mark down the results of the different heats, including the time. This gives the looker on not only the pleasure of seeing the race while it is occurring, but with the order of the winners recorded on the score card he has at a glance an intelligent idea of the performance. He enjoys the race because he knows about it.

After each race the judges announce the names of the winners in their order and then the time from the judge's stand; and after each heat the numbers and time are placed on the bulletin board in front of the grand stand and allowed to remain till the result of the next heat is announced. Thus there is plenty of time to write this information on the score card.

The advertisers on the score card have something of interest to tell you, and if you have a moment to spare between the races read what they have to say to you. They are all leading, wide awake merchants or professionals, for every one in the twin villages of Norway and South Paris, and what they say may be relied upon.

PRIZE PUMPKINS.

Something Worth Knowing.

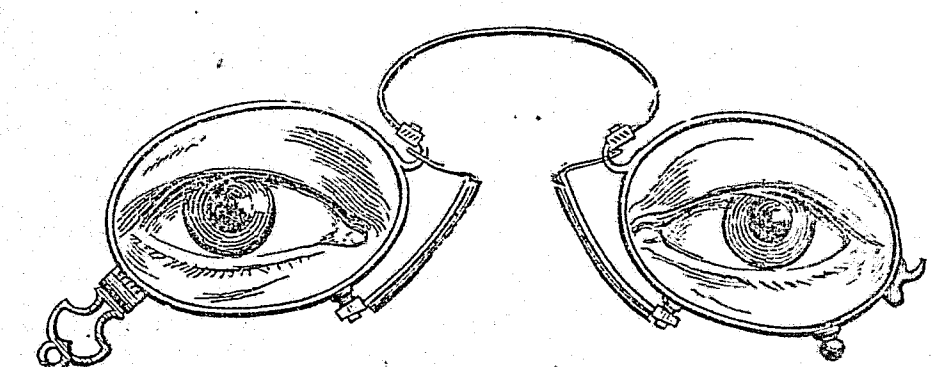

Lunenburg, Vt., Sept. 12, 1905.
If you wish to have the best returns from your plant from year to year please give this a trial, my friend farmer of the town of Norway.

In saving your seeds from your seed corn do not save any corn only from the center of your ear of corn, at the butt end. If you save it from the tip end you will always raise late corn, for every kernel of corn is later as you work toward the tip.

It is the same in all seeds. I do not plant the seed end of a potato. It will run your potatoes out and make it later every year if you do this by your seed. Always sow your seeds from your pumpkins and the cucumbers as near the stem end as you can and you will find that they will not all go to vines and blight.

I wish farmers to work on this principle in all seeds and they will soon find out what I have always been doing in this way. I know it to be one of the best ways to have early crops. Just give this your thought and it will add money to your farm in a short space of time. This is from a man of Oxford county.

The prize list tells us that the premiums are for "Oxford County and Limits" unless otherwise specified, including Harrison, Otisfield, Mechanic Falls, Minot and Turner.

A Competent Optician
IS A PUBLIC NECESSITY.

HILLS
PRACTICAL GRADUATE OPTICIAN.

Our Optical Department is the finest in Oxford County. The only optician in this county who has ever personally attended an Optical School and has diploma for same.

Hills is recommended by nearly every first-class Physician in Oxford County, what more do you want?

If your eyes need treatment go to your regular Physician, IT'S SAFER than fooling with Quack Doctors and Fake Opticians.

NORWAY ADVERTISER, 1885, 10 years ago, says: "Vivian W. Hills, our leading optician has been in Portland the greater part of the past few weeks, taking a post-graduate optician's examination under the charge of a celebrated New York optician. His examination and practice at the Eye and Ear Infirmary must necessarily be a benefit to Mr. Hills in his examination of eyes. Mr. Hills took his first course ten years ago in Chicago and ever since has been in advance of all others. He also was the first in Oxford County to make a specialty of fitting the eye for all errors."

Hills' prices are the lowest. Why pay \$6.00, \$5.00 or \$4.00 when you can get the very same at Hills for \$2.50.

Anyone can sell Glasses, WE FIT THEM. The country is full of those who wish to fit you with spectacles, whose only knowledge has been bought by mail with you to practice on. Do you think Diplomas BOUGHT BY MAIL make an optician?
